Description

Description:
The object is a face mask from Java made for the topeng theater. The mask is carved from a single piece of wood. Balsa was typically used for this type of mask, although identification has not been confirmed. The mask is decorated with paint on the OBV in the following colors: orange, black, pink, bronze. There is a piece of leather attached to the REV in the mouth area with iron nails that would have been used by the dancer/actor to hold the mask to the face.
